

We reach out to people by providing digital communications in the form of:

- Bible studies;
- Texts of encouragement;
- Biblical Affirmations;
- Podcasts;
- A community of united believers to turn to and fellowship within our forum; &
- Location services for local groups and individuals being called by Jesus so they do not feel isolated by only having the option of online communication,

for our members and the people we are praying for.

Many people have yet to discover what a relationship with their Creator looks like.

Some of us found religion but not a real relationship experience.

Yet some of us feel a call to fulfill our commission given to us by Jesus to seek and save the lost, but have no idea how to start.

Maybe some of us have tried and failed.

We were called to use modern technology, scientific research, history, and logic to show the validity of our God the Father, our God the Son (The Word made flesh), and our God the Holy Spirit, which are **ONE**. This is only reinforced in the countless prayers, teachings, and examples to make us all **ONE** under that divine umbrella, that we affectionately refer to as, "the family of God."
